Short
of the
Goal

Larry is a fullback. You ought to see him finding those holes in the line . . . driving off tackle . . . slashing through the secondary. Oh, Larry has scored a dozen touchdowns!

But he can't kick an extra-point! The cross-bar is too high, the goal posts are too far away.

Just give Larry a year or two—with lots of practice. Then we'll win those close ones . . . 7-6 . . . 14-13 . . . 21-20!

Never worry about failure when its cause is being overcome. Don't lower the goal . . . keep trying. Grow stronger. You'll reach it!

That's one of the lessons of life that Larry has learned on Sundays when he goes to church with his family . . . one of many lessons that help us achieve our best every day of the week.

TREES ON IDLE ACRES ARE PROFITABLE

Area Forester Glenn Purvis is urging all landowners in Hancock County, to take advantage of the Mississippi Forestry Commission program which offers seedlings for profitable Tree Farming. Each landowner is eligible to receive 1,000 free seedlings delivered to a central point in his county for a delivery charge of only 35 cents.

Owners of idle acres are paying taxes on this land and earning nothing. By planting them with trees, in twelve or fifteen years you will be realizing cash income. It is estimated that the nations lumber requirements by the 1970's will be fifty percent higher than today.

Mississippi Forestry Commission is now accepting applications for seedlings to be used in the 1962-63 planting season. Order today and take advantage of the Mississippi Forestry Commission seedling program. Trees can give us greater prosperity in the future.
